Please complete, where applicable, the relevant sections below and provide any additional information as may be required. Please be advised that in certain circumstances the Bank may be required to share this information with relevant tax authorities. If you have any questions about how to complete this Section, please contact your tax advisor.

[†] List all nationalities, if more than one.

[†] Generally, an individual is resident for tax purposes in a country if, under the laws of that country (including tax conventions), he/she pays or should be paying tax in that country by reason of his/her domicile, residence, or any other criterion of a similar nature (i.e. full tax liability), and not only from sources in that country. Dual resident individuals may rely on the tiebreaker rules stipulated in tax conventions (if applicable) for determining their residence for tax purposes. Your tax residence usually matches with your principal residence. For instance, a holiday apartment generally does not trigger unlimited tax liability and accordingly does not lead to a tax residence in that country.
