Keep your card and PIN safe

It's important to keep your card and PIN separate. To ensure the safety and security of your money, we advise you take the following steps:

- Tell us immediately if your card has been lost or stolen, or if there have been any unauthorised transactions.
- Never lend your card to anyone or share your PIN.
- Always shield your PIN when making payments in store and contact us immediately if you think someone else knows your number.
- Only shop on reputable websites.
- You can change your PIN quickly and easily at most ATMs in the Visa global network. Avoid selecting a number that may be easy for someone else to guess, such as your date of birth or part of an address.

For your convenience, your card comes with contactless technology, a simple tap to pay for purchases up to £45 at checkouts displaying the contactless logo.
